

LARGE GAS CART MAINTENANCE PROGRAM

The most convenient and thorough way to keep your large gas service carts in prime condition.

Routine maintenance is the key to system reliability and SF₆ processing performance. DILO is proud to offer an on-site maintenance program for large gas service carts. This service consists of a trained DILO technician thoroughly examining your machine, replacing all filters, & changing the vacuum pump oil on-site. With this program, owners can look forward to years of trouble free service and unwanted downtime. Additionally, hands-on training can be provided to the operators ensuring the equipment is used properly and to its fullest potential.

- Your equipment will be maintained by trained and certified DILO technicians
- Full inspections at the start and end
- Equipment service & maintenance records stored by DILO
- Additional hands-on training available once maintenance has been completed
- Replace lost or damaged manual of unit
- Provide full documentation report of maintenance performed after completion

Standard Items for All Options*:

Full comprehensive inspection & testing
Replacement of all filters
Replace vacuum pump oil
Software & hardware updates
Calibration verification certificates
Service reminders via email
Simplistic service scheduling

Models Covered:
