

SMALL GAS CART MAINTENANCE PROGRAM

Routine maintenance is the key to system reliability and SF₆ processing performance. DILO is proud to introduce an annual maintenance program for our entire line of small gas service carts. A trained technician will thoroughly examine your machine which includes the following: a complete inspection of the plumbing and electrical systems, performance/functional testing, replace all filters, & change of the vacuum pump oil. With this program, owners can look forward to years of trouble free service without unwanted downtime.

- Knowledge that your DILO equipment will be maintained by trained DILO technician
- Annual scheduled Preventative Maintenance for your unit
- Equipment service & maintenance records stored by DILO
- Purchase of annual maintenance program will extend original manufacturer's warranty for one year*

*when warranty is purchased with new equipment purchase

Standard Items*:

Replace all gas filters
Test/change/replace vacuum pump oil & filter
Pressure check compressors
Leak check all fittings & connections
Inspect all tubing and hoses
Inspect regulators & gauges
Full electrical inspection
Jack stand & tire Inspection
Software upgrade (Touch screen equipment only)
Calibrate Dilo Weight Scale (for models with on-board DILO scale)
Replace lost or damaged manual of unit
Provide full documentation report of maintenance performed after completion

Models Covered:

Mini Series
Economy Series
Performance Series
Piccolo Series
Compact Series

* Program does not include repairs of parts due to damages which may result from abuse, misuse, misapplication, accidents, or because of service or modification by anyone other than authorized DILO representative. Any additional repair cost will be quoted separately after the initial inspection.
